Airport Transfers – Main Tour

Arrival

Shared **arrival** airport shuttle is included for all arrivals at no cost if your flight arrives between 6am-8.30pm.

Shared Shuttle for all arrivals: how it works

We use a shared shuttle service which passengers from other tour operators may also board. The shuttle collects passengers from same airport at the same time of day for arrival transfers, which often takes longer than a private hire service.

For example, it takes 1-2 hours from Narita/Haneda airport to the hotel but the airport-shared shuttle may take 1.5-2.5 hours.

At the arrival gate, a non-English speaking driver welcomes guests with a signboard with guests' names on it. Our guides will welcome each guest at the hotel when they arrive.

Often trains into Tokyo take less time.

Time limit for meeting with airport shuttle is 90 min from flight arrival (see ** below for immigration clearing procedures)

More info on airport shuttle [here](#).

Please enquire about booking a private transfer. Approx. \$275 per vehicle of 3 pax with luggage.

Departure

A similar shared airport departure service to KIX or ITM is available for USD 100pp. Please enquire.

For Amami Oshima extension, flight arrives at KIX or ITM, Osaka. Timings to be confirmed closer to time.
